

New Traditional Collection

Appalachian Hickory & Northern Oak Flooring with Timeless, Classic Beauty

Pictured: Skylark

New Traditional Hickory - Rooted in nature, this collection offers soft, sun-washed hues that bring a sense of warmth and balance to your home. Offered in 3-1/4" and 5" widths, each plank highlights hickory's distinctive grain, enhanced by a gently brushed surface that adds subtle texture. A durable urethane finish helps resist scratches and stains, ensuring a floor you'll love for years to come.

New Traditional Oak - Meticulously crafted from northern red oak, known for its slower growth rate, which results in a denser floor with a more consistent, tighter grain pattern. This collection utilizes state-of-the-art manufacturing methods and premium natural materials. Offered in a 4-1/4" width and features an antimicrobial, crystal-clear finish that not only provides exceptional durability but also enhances the wood's natural beauty.

Sustainable for Generations

The most environmentally friendly flooring available are authentic wood floors. Trees are a renewable resource and provide flooring that is sustainable for many generations. All Viking Hardwood Flooring products are made with raw material originating from sustainably managed forests.

Disclaimer: Please remember that one of the beautiful properties of wood is that it is a product of nature and natural variations in color and grain pattern are to be expected. Color swatches and room scene images are meant for inspiration and to aid in color selection. Actual products may vary. Multiple sample boards or a full carton of material will give you a more accurate representation. All dimensions listed are approximate.
